Introduction

Situated at a distance of 50 Kms (approx), from Agartala, the state capital of Tripura, Netaji Subhash Mahavidyalaya is located in a campus of 4.62 acres of land area. The institution started its journey in 1964 as a private college affiliated to Tripura University. On 21st September, 1979, the institution was recognized as Government Degree College and started its journey as a govt. institution with 6 departments in arts stream. Commerce and science streams were introduced in the years 1987 and 1997 respectively. The institution was renamed as Netaji Subhash Mahavidyalaya on 23rd January 1997. At present the institution offers six (06) courses in three (03) different streams. The faculty of Arts offers both major and general courses in nine subjects namely Bengali, English, Sanskrit, Economics, Education, History, Political Science, Psychology and Philosophy. General courses are offered in Geography, Kokborok and Physical Education. Faculty of Science offers both major and general courses in Physics, Chemistry, Mathematics, Zoology, Botany and Human physiology. Faculty of Commerce offers both major and general courses. Post Graduate courses in Bengali and English are going to be commenced from 2022-23 academic sessions.

The College campus encompasses of a new academic building, two old buildings and one single-storey building for imparting classes to around 5000 students, primarily from nearby locations. The Central library of the institute, located in the main building has installed INFLIBNET and e-Granthalaya.

Message From Principal

Netaji Subhas Mahavidyalaya was established in 1979 and is adjacent to National Highway no. 8, under Dhwananagar Gram Panchayat, Gomati District, Udaipur. The institution provides six courses in three separate streams, with approximately 4500 students enrolled. During the reporting period, the institution had 52 faculty members, 15 lower division clerks, 09 group Ds, 02 cooks, 07 laboratory attendants, and one night guard. Intake capacities of the college were Bachelor of Arts-1500, Bachelor of Science-140, Bachelor of commerce-100, Bachelor of Arts (Honours)-408, Bachelor of Science (Honours)-227, and Bachelor of Commerce (Honours)-40.

Our institution's prime focus is on teaching and learning. To ensure academic achievement in our institution, we have made and will continue to make every effort needed. Online and off-line lessons, referred to as hybrid modes, were implemented in the academic year 2020-21. Teachers and students contacted regularly through Google Meet and WhatsApp during Lockdown period, and online classes were held on a regular basis. Learning by doing is a fantastic method of knowledge acquisition, and two departments took part in field work programmes during this year. Meanwhile, 99% of students successfully passed their final semester in all the courses. In the Tripura University Final Examination, a total of 09 students have been ranked.

Faculty members at NSM are highly qualified, well-versed, and dedicated for sharing their knowledge to the students. They improve their skills by participating in various faculty development programmes, such as workshops and seminars, hosted by various Institutes and Universities. We also organized a workshop for laboratory attendants to improve their skills. Despite the fact that the institution's research facilities are restricted, faculty members have published eight research articles in reputed journals.

COVID-19 pandemic was one of the major challenges that students, faculty members and our society faced during this time. NSS unit of our institution had organized several COVID-19 awareness campaigns and provided kits to various communities. The college conducted a survey on students and faculties on immunization status. On the basis of the survey report, a vaccination drive was managed to hold in the college for our students and faculties with the assistance of the local health centre.

Students are consistently encouraged to engage in debates, speech, and poster competitions sponsored by the Department of Higher Education, the District Administration, and various other reputed institutions in order to improve their competitive spirit.

We have had impressive achievements in extracurricular activities as well. In our institution, we have a highly active NSS unit, a vibrant girls NCC unit, and an active boys NCC unit. The remarkable programmes conducted by NSS unit are two special camp programmes, two blood donation camps, two plantation programmes. NCC cadets assisted local police during Puja, they have joined Republic Day parade organized by district administration, and three of our cadets were awarded best cadets during CATC camp.

Games and sports keep us fit, active, healthy, and social. Our institute has always been prone to taking the lead in getting the best results in sports. One dedicated Physical Instructor is working hard for the betterment of sports under the direction of the college's Physical Education Department. The majority of the students of our institution are from rural areas, and they were quite enthusiastic in games and sports. Last year, two students were awarded 1st positions in a National Chess Boxing competition in two separate categories.

A SAP committee has been re-constituted as part of Swachh Campus and the task for Greenery, Energy, Water, Waste, and Sanitation has been divided to different members. Accordingly, they have conducted survey and we have started action according to their recommendation.

Unemployment is a worldwide issue, and keeping this in mind aside from academic activities; our institution conducted 08 (eight) skill development workshops for students. After the training, some students began mushroom cultivation and production of vermicompost.

I would like to dedicate whatever we achieve to the dedicated team of faculty, beloved students, and other staff. I want to express my heartfelt gratitude to Tripura University, department of higher education, staffs and all of our stakeholders for their unwavering support, advice and cooperation.

Chapter 1: Profile of Teaching Faculty and Non-Teaching Staff

In the academic year 2020-2021, a total number of 52 faculty members (5 Associate Professors, 27 Assistant Professors, 20 Post Graduate Teachers) have contributed actively towards the teaching learning process in the institution. Out of them, nine got transferred to other degree colleges and one got retired from service. To fill up the huge academic vacancy nine teachers from different colleges have joined the institution also. Not only that in a college with a student strength around 4500 to run all the academic activities smoothly some guest teachers (temporary post) are also appointed in the departments.

Chapter 5: Faculty Participation in Professional Development Programmes

Internal Quality Assurance Cell, Netaji Subhash Mahavidyalaya, always encourages and ensures the participation of faculty members in various **Professional Development Programmes** such as Orientation courses, Refresher courses and other Faculty Development Programmes conducted by UGC-Academic staff colleges and other National level agencies. The faculty members are always eager to enrich themselves through regular participation in such courses. However, the participation is subject to permission granted by Department of Higher Education. In 2020-2021 academic year, due to pandemic, all the **Professional Development Programmes** have suddenly been shifted to online mode in virtual platform. Such a paradigm shift has created a larger opportunity for faculty members to attend such courses even running smoothly their teaching-learning process in parallel.

Chapter Six: NCC and NSS Activities

NSS and NCC cells of N.S. Mahavidyalaya are very active throughout the year and these are the major agencies through which extension activities of the institution are carried out. Students enrolled in NCC and NSS take part in several activities both within the campus and beyond. NCC cadets' and NSS volunteers' have shown active involvement in COVID19 awareness programs, blood donations, environmental awareness programs, tree plantation etc throughout year. They organized COVID 19 vaccination camps in the college campus, distributed kits and materials to local people during the pandemic. They have cooperated actively with the district administration in the Diwali Mela where NSS volunteers and NCC cadets have played important roles in assisting the administration. Celebration of Yoga Day and Fit India movement (in both online and offline mode), Swachh Bharat abhiyan(executed through cleaning programmes and creating awareness also addressing plastic waste management) are other areas where both units have participated actively. To create environmental awareness world environment day is celebrated by both units. Road Traffic awareness campaign is also taken up by both the units. NSS has also organized programmes on consumer rights, distributed materials in Anganwadi centres and has also taken up programmes for creating awareness against drug addiction. NCC has also taken up the initiative for creating awareness about New Education policy 2020 in the society. Details of the activities are displayed in the reports uploaded in the college website.

Chapter 7: Cultural and Sports related activities

The institution has a legacy of a strong cultural background. It is a continuous practice of the college to conduct a number of cultural programmes every year. Besides, students of the college participate in cultural programmes conducted outside the college. However, due to covid outbreak the institution could not organize offline cultural programmes. In addition to cultural activities, our students enthusiastically participate in sports events, both inside and outside college campus. Few students of the institution have won national and international awards during the period under consideration. Tables given below contain details of sports activities.

The following events have been organized for the inter-class sports tournaments for students. Our college players have achieved very good performance in following games:

Chess	Boxing
Kabaddi	Football
Weight Lifting	YOGA
Judo	Body Building
ATHLETICS	Swimming
Volleyball	Cricket

Our college students also participated in the Inter-college championship 2021-22 in different Games which is organized by Tripura University. The college has organized Annual Sports Day on 12 February, 2021 with great enthusiasm.

Chapter 8: Skill Development Programmes for Students and Livelihood Generation

The vision of Netaji Subhash Mahavidyalaya is to provide inclusive education for inculcating human values, professionalism and scientific instillation to all sections of students including scheduled tribes, scheduled castes, other backward communities and religious minorities with special focus to female students. The college is continuously striving for providing ample scope for overall development of local youths irrespective of religion, race, caste, gender through student-centric learning for self-development and skill development among students. In the present socio-economic scenario, it is essential to grow up a generation competent enough to get absorbed in private/government jobs or to make themselves competent enough for self-employment. So, the institution has taken initiatives to equip the students with some relevant technical skills with a moto to improve their employability and help them in starting small entrepreneurial ventures. The programmes are organized mostly in collaboration with other government institutions with involvement of resource persons who are experts of the particular skill.

In line with the activities for imparting some market worthy skills to the students it seemed imperative that the institution itself strive to put before the students a small business model where the institution can earn some revenue by production and sell of products manufactured in the campus using mostly campus waste and active support from students themselves. For this purpose Vermicompost Production from bio degradable component of campus waste along with locally procured cheap plant waste materials and Mushroom cultivation and sell of the products in prevalent market rate has been initiated. Along with exploring the possibilities of institutional revenue generation, the main objective of the practice is to put before the students a small business model where their own expertise is used so as to encourage them to take up such entrepreneurial activities privately.

The college has taken up the initiative to produce Vermicompost and to cultivate Mushroom in college campus with involvement of faculty members of departments of Zoology and Botany respectively. Students of the college who got training in Vermicomposting and Mushroom Cultivation by attending Workshops organized on these two skills by the college

earlier are actively engaged in the production process. Department of Zoology is using the vermicomposting tanks which are already existing in the college campus to produce vermicompost from biodegradable waste materials available in the campus as well as plant waste available for free locally. The college has invested a small amount for repairing of the tanks and procurement of earthworms. Cow dung is procured locally at a small price. The compost is packed in 5 kg bags and being sold at the rate of Rs 100 per bag to staff, faculty members and local people for their personal use. As for Mushroom cultivation, Oyster Mushrooms are being cultivated in the Department of Botany using paddy straw. The college has spent a small amount for purchasing straw, spawn and accessories. Autoclave for sterilizing the straw is already available in the department. The mushroom produced is being sold at the rate of Rs.200/- per Kg to staff, faculty members and local people.

Chapter 10: Green Audit

Eco campus is a concept implemented in many educational institutions, all over the world to make them sustainable because of their mass resource utilization and waste discharge in to the environment. Waste minimization plans for the educational institute are now mandatory to maintain the cleanliness of the campus. To find out the environmental performance of the educational institutions and to analyze the possible solutions for converting the educational campus as eco-campus the conduction of Green Auditing of institution is essential.

This is the first attempt to conduct green auditing of the college campus. In accordance with the Green Campus Evaluation Plan, as suggested by the Internal Quality Assessment Cell (IQAC) of the college, N S Mahavidyalaya, Udaipur, Gomati District, Tripura planned for conducting a green audit of the college in April, 2019. It was delayed due to the lock-down for COVID 19 pandemic. Ultimately, the Green Audit has been completed by the college internal audit team and submitted during the academic year 2020-2021.

This audit was mainly focused on greening indicators such as water, waste, biodiversity, energy, carbon foot print, and environmental audit in general. Environment audit was done by Tripura State Pollution Control Board. In order to meet its objectives, this audit combined physical inspection with a review of relevant documentation and interviews with various stakeholders. Collected data were grouped, tabulated and analyzed. Finally a report pertaining water, waste, biodiversity, energy, environment management audit focusing strength, weakness and recommendations on the green issue of campus are documented. However, information regarding the environment audit of the institution conducted by Tripura State Pollution Control Board has been reported separately, not in this internal audit.

The baseline data will be a useful tool for campus greening, resource management, waste optimization, energy management and a document for implementation of sustainable development of the college with carbon neutral.

Chapter 11: Alumni Activities

The Alumni association of the college started its initiatives long back in the year 2012. The association got registered under Societies Registration Act, Govt. of Tripura in 2018. Since then, the association has extended all possible help to the college for its smooth conduct. During the period under consideration, the association has endeavored to organize a blood donation camp in the college in association with the NSS wing of the college on 22nd December, 2021.

Chapter 12:New Initiatives

The institution endeavors to set up a medicinal plant within the campus and initiatives have been taken in this direction.

Secondly, initiatives have been taken for management of solid waste generated within the campus. Activities relating to solid waste management are enlisted below.

1. Workshops on Leaf Compost and VermiCompost for management of organic waste have been conducted on 10.11.2021.
2. A Segregated Waste Collection Centre has been set up to segregate organic and non-organic wastes. Accordingly, useful organic waste will be processed for compost generation.
3. Besides, leaf waste/plant materials will be used for compost generation.
4. Two Laboratory Pits have been made for disposal of hazardous waste from Science laboratories.

Thirdly, the process of library automation has been upgraded through installation of ILMS e-granthalaya software (EG-4.0 in cloud.) in the college library.

Another major new initiative during 2020-21 is the conduct of workshops for skill development of the students. This initiative aims at making our students skillful and competent enough so that they can earn their livelihood.
