

A report on celebration of National Mathematics Day 2020 (22.12.2020)

National Mathematics Day 2020 was celebrated by the Department of Mathematics on 22.12.2020. This could be done in the college for the first time as the usual university exams which usually continue during this time of the year were not going on for the disruption caused by the first wave of COVID19. The then principal in charge readily agreed to the proposal from the Department and the programme was held before the main building of Netaji Subhas Mahavidyalaya on 22.12.2020 as it offered open space for people to stand apart maintaining physical distance. Teachers from all disciplines, students of mathematics along with students of other disciplines and ministerial staff of college gathered to pay their respects to the veteran mathematician Srinivasa Ramanujan. Manisha Saha, a student of Mathematics honours spoke on the life of Srinivasa Ramanujan, the head in charge of Department of Mathematics, Dr. Krishnendu Das briefly outlined the work of Srinivasa Ramanujan and the then Principal in charge Dr. Rita Das Nayak summed up the events of the day with a high spirit.
