

Programme Outcome

B.A. (Honours)

The institute offers nine (09) courses under B.A (Honours) Programme. The honors courses provide in -depth knowledge on the subjects and develop the ability of critical analysis. For language subjects the programme develops language skills and also nurtures the students in intellectual and social skills. The programme also generates the ability of comprehensive understanding of the courses and develops wisdom to pursue critical thinking on the societal issues. Further, the courses familiarize the students with the broad contours of the subjects. Courses are designed in accordance with the present day requirements of the society. Various tools and techniques are taught for empirical verification of the theories incorporated in the syllabus. The course makes the learners able to prepare for various competitive examinations and also help them to pursue higher studies of their choice. The programme, through its learning contents, focuses on holistic development of the learners and inculcates human values so as to make them good and responsible citizens. In addition to course specific knowledge, the programme develops the ability to deal with practical issues of human life as well.

B.A. (General)

The institute offers twelve (12) different courses under the umbrella of B.A (General) programme. The course content enables the students to acquire knowledge on the specific subjects. Learners of general courses are also made able to conduct empirical verification of the theories through projects. The programme focuses on skill enhancement of the learners on intellectual and social aspects and makes them competent enough to deal with problems of life. The programme focuses on holistic development of the learners and imbibes moral values so as to transform them into responsible citizens. The programme targets to develop the sense of professional ethics amongst the learners. The learners are groomed so as to appear for competitive examinations and pursue studies of higher order of their preference.

BSc (Hons)

Netaji SubhashMahavidyalaya offers six B.Sc. Honours in Mathematics, Physics, Chemistry, Botany, Zoology and Human Physiology. The subjects are taught in full spirit and the syllabus of B.Sc. Honours course enables our students to be better candidates to pursue post graduation in their respective subjects of honours both within the boundaries of the state and beyond. The honours course in B.Sc. is so designed that a student learns a wide variety of topics in the subject and also gains an in-depth knowledge in the areas included in the syllabus. The students are expected to develop a well-formed scientific temper and an analytical mind to assess nature and environment around them. This programme also lays a strong foundation for anyone who wishes to prepare for civil service exams both of the state level and all India level. The B.Sc. Honours programme makes students eligible to go for B.Ed. after which students are eligible for several posts in school teaching below the post of PGT. They however may become a PGT if they complete a Masters degree and have the other requirements. Besides they also become eligible for all other jobs demanding either a graduation or a graduation with science.
